JOIN THE COSSAP COMMUNITY!

Send an email with your contact information and the subject line "Add Me" to COSSAP@iir.com.

You will receive the latest COSSAP opportunities, resources, and updates!

Advocates for
Human Potential, Inc.

In collaboration with BJA, AHP provides targeted assistance and expertise to COSSAP grantees, and others, at the intersection of substance use disorders and criminal justice, focused on jail-based treatment and services provided pretrial and in community corrections. Some examples include:

VIRTUAL AND IN-PERSON TRAINING

Virtual training provides COSSAP grantees relevant, timely knowledge-sharing through AHP developed webinars, podcasts, and virtual training — [COSSAP Online Learning Center](#). This includes provision of virtual and in-person training on the Sequential Intercept Mapping.

JAIL-BASED MENTOR PROGRAM

The Jail-based mentor program provides a unique opportunity for jails interested in implementing medication-assisted treatment (MAT) to learn from one of six innovative programs with demonstrated success in meeting the substance use treatment needs of incarcerated community members. [Applications are accepted on an ongoing basis.](#)

DIRECT CONSULTATION

AHP project staff and other national experts provide coaching, topic research, provision of sample policies and protocol, and information sharing on an on-demand basis.

As a Bureau of Justice Assistance National COSSAP Jail-based Treatment and Community Corrections TTA Program Provider, Advocates for Human Potential, Inc. (AHP) provides ongoing, direct TTA to support jurisdictions in their public health responses to advancing substance use treatment and recovery services in the criminal justice system.
