

COAP PDMP Special Conditions

Ownership of PDMP—Control of PDMP Data. The recipient shall retain all title held in controlled substance- or prescription data (“PDMP data”) that is stored in a database operated by or under the oversight of the recipient, whether or not the PDMP data is in existence at the date of award acceptance or compiled thereafter during this award’s performance of period. Upon request by the recipient at any time, all contractors and subrecipients (at any tier) shall promptly deliver to recipient the PDMP data in electronic format as exists on the date of the request by the recipient. The recipient shall ensure that any and all contractors and subrecipients (at any tier) acknowledge that the recipient retains ownership of and control over the PDMP data.

PDMP Data Sharing System—For the purposes of this condition, a “PDMP system” is a local- or state-based data system that received federal financial assistance since 2002 under an award under this program for the reporting, collection, and use of PDMP data. “PDMP data” means controlled substance- or prescription data. “The PDMP hub” means BJA’s designated PDMP data sharing system.

The recipient must ensure that the recipient’s PDMP system has the capacity to exchange data with other PDMP systems via the PDMP hub.

The recipient must allow other PDMP systems to exchange data via a direct connection to the PDMP hub with the recipient’s system at no cost to the other PDMP systems or the federal government and regardless of what interstate data exchange system the recipient chooses to use.

The recipient must ensure that this requirement is reflected in all contracts or subawards, at any tier, with any vendor or subrecipient, at any tier, under this award.

The recipient must ensure that all contracts or subawards, at any tier, with any vendor or subrecipient, at any tier, working on the recipient’s PDMP system provides the recipient with the option to use and connect to the PDMP hub to exchange PDMP data at the lower of—(1) actual cost; or (2) what would be (or in fact is) charged by the vendor or subrecipient for the use of any data exchange hub substantially equivalent to the PDMP hub.

Within ninety (90) days of accepting this award, the recipient must inform BJA of whether its PDMP system is connected to the PDMP hub or not. Failure to connect to BJA’s designated PDMP data sharing hub may result in a hold on all award funds until BJA receives documentation and confirms compliance with this condition.

The recipient must notify BJA in writing within seven (7) business days if the connection to the PDMP hub experiences a sustained interruption of service lasting longer than six (6) hours.

Nothing in this condition prohibits the recipient from using or not using any data exchange system that is otherwise consistent with the requirements of this award (including those contained in this condition).

The provisions of this condition are among those included in any subaward (at any tier).
